- C I have a little sunshine I need to share  
G I have a little time and I can be there  
C I have a little laughter I want you to see  
G I have a little love just for you and for me C
- C The smile you give me makes me want to stay  
G I hope I can chase your blues away  
C And if you need me just give me a call  
G My helping hands are just down the hall C
- C And if you're feeling a little bit blue  
G I know what it's like, I've been there too  
C Together we'll make the best of today  
G When I care for you it brightens my day C
- C I want you to know it's not just what I do  
G I come to assist, it's all about you  
C My name may escape you, it's always okay  
G I'm proud if you call me your LNA C
- G I'm proud if you call me your LNA C C, G, C
